

X1 Solutions - MSS/Website

MOBILE SALESSUITE™

Build a Dynamic Corporate Website with Ease

Does your current website need a face-lift, tired of paying hosting fees or does your site lack dynamic content? Eliminate these worries affordably! MSS/Website establishes a complete web solution or co-exists with your current site for an enhanced web presence.

Provide Dynamic Information

Allow web leads and customers to create accounts, generate new sales opportunities through lead inquiries, provide real-time account, order status and shipment history. Display "portal" screens based on viewer type or role to personalize site visitation.

Implement a Web Shopping Cart

MSS/Website utilizes the MSS/CRM Product Catalog to create a web shopping cart system for business-to-consumer transactions. Generate new sales through secure web order entry, display current order status and shipment notification, and process online transactions in real-time.

Support Your Client Needs

Implement web portals to allow your prospects or customers access to public or role based information. Allow visitors to download files, enable staff to publish company news and provide new Web content quickly and easily.

Integrate with Multiple Systems

Utilize MSS/Website to query and display information from other Mobile Sales Suite modules or existing corporate business systems. Service customers proactively through account automation. Integrate with IBM WebSphere Portal for a complete corporate "portal" solution.

MSS/Website is an affordable Internet solution that integrates with MSS/CRM and IBM WebSphere Portal for a complete internal and external sales solution.

Build a Dynamic Corporate Website with Ease

Now your company can benefit from a fully dynamic web presence packed with easy to use features. MSS/Website allows you to leverage your IT investment to create a complete, integrated, and well-rounded corporate website, with full intranet and Internet functionality. MSS/Website offers a shopping cart and order check-out system for use with the MSS/CRM Product Catalog, a content management system for creating dynamic company web pages, and a method to maintain and publish a knowledge base, downloads and company news.

Allow prospects and customers to create accounts, download information and view dynamic content relevant to their needs. "Portal" the look and feel to personalize the experience and service level.

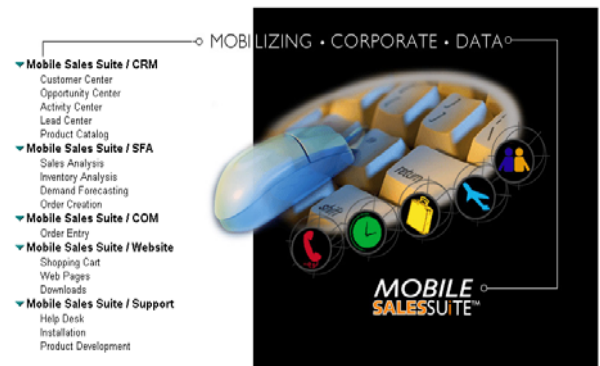

| No. | Item | Description | Qty | Price | Est. Price |
|-----|----------|-------------------------------------|-----|-------------------|------------|
| 1 | BCC-83-8 | 3 Bt. Brown Aluminum Oxide (Coarse) | 1 | 10.00 | 10.00 |
| 2 | GB-15-8 | 15 lbs. Glass Beads (Fine) | 1 | 25.00 | 25.00 |
| | | | | Sub Total: | 35.00 |
| | | | | (Sales - 7%) Tax: | 2.46 |
| | | | | Total: | 37.46 |

Utilize the MSS Product Catalog to display item information on the Web. The catalog is integrated to a shopping cart for secure online ordering.
